

10-MINUTES TO BEDTIME by Peggy Rathmann

Objective

The students will be able to count 1 to 20 and do simple addition and subtraction problems.

Materials Needed

- *10-Minutes to Bedtime* by Peggy Rathmann
- Number Worksheets 1, 2 & 3
- Scissors, crayons
- Envelopes (optional)

Directions

1. Have the children color the number worksheets and cut out the hamsters and the math signs. Ask them to put them in a special envelope.
2. Have the students come to the story area and read to them *10-Minutes to Bedtime*. Have fun with this wonderful story.
3. At their desks, ask the students to use the hamsters and math signs to do several math activities:
 - Order the hamsters 1 – 20.
 - Find and hold up named numbers.
 - Write simple addition and subtraction problems on the board and have the children hold up the correct answers.
 - Play math games with a partner using the hamsters as the questions and answers.
