

CHINCHILLA MAGNET

Objective

Making a Chinchilla Magnet takes a few, simple steps.

Materials Needed

- Wooden heart (stiff paper could work, also)
- 1 black skinny pipe cleaner
- 2 small googly eyes
- 1 miniature pink pom pom
- Gray and brown paint (unless the paper is colored)
- Tacky glue
- Magnet
- Scissors

Directions

1. Paint the wooden heart brown and let dry.
2. Cut the pipe cleaner into six 1.5" pieces.
3. Glue the pink pom pom to the point of the heart for the nose.
4. Glue three whiskers to the left side of the nose and the other three on the right. Glue the two googly eyes around the middle of the heart, above the nose.
5. Use gray paint to add the ears (in the humps of the heart).
6. Glue magnet to the back of your wooden critter and place it on any metal surface.
