

PAPER BAG MOUSE PUPPETS

Objective

Paper Bag Mouse Puppets are simple and can lead to more interaction and fun.

Materials Needed

- Small, brown paper bags
- Scraps of construction paper
- Glue
- Scissors
- Markers or crayons
- Optional googly eyes, and pipe cleaners for whiskers

Directions

1. Fold the two square edges of the paper bag under to form the mouse's pointed snout.
2. Make ears by cutting construction paper that's rounded on one end and flat on the other.
3. Fold near the flat end and glue to top of paper bag.
4. Glue on googly eyes or make them out of construction paper.
5. Glue on pipe cleaner whiskers or make them out of strips of construction paper.
6. Draw a nose and eyes or make them out of construction paper.

With some slight modification and creativity, you can adjust this to match the look of other small animal pets.
